

Shabbat Shalom,

As we near the end of this Shabbat, this newsletter is going to contain some information on recent events. It is not that long, so I would advise everyone to take a few minutes of your evening and read.

Below is a series of Recent Articles, which speak about Events most people has not heard about, Such as china having **more** troops in Hawaii tomorrow. With some links I have also included quotes from those articles, which shows the main point or a short overview of what each article is about. For a fuller understanding, you should read all of these articles.

My comments are in **red**. A link is provide first, then a quote from the article, then a ' --- ' separator line between articles.

First I want to link an article and my comments, from my most recent post on facebook:

!! IMPORTANT NOTE - PLEASE READ !!

****IF**** they are planning to take the GridEx II Power Grid Down 'exercise' and make it a 'live' event this time. Then I fully believe that it will **Not occur on nov 13th** as everyone is expecting.

But Rather I think it will occur on **Nov 12th (tomorrow)**, as they will have everything in place by that time. And for Other Reasons which I am not going into here.

Whenever they do take out the power grid, (whether it is tomorrow, next week, next month) there will be a Short Period of Time (24hrs ?) directly after the grid goes down, that people *MAY* have the ability to escape and flee, Before the military and other entities are able to get into place. The reason people "May" have time, is because it may also depend on where you are, like in a major city, verses a lower population area or small town.

So, when the grid goes down, if you are in a city or other un-safe location, and want to flee from there. You ****MAY**** have a short period of time to do so. But you will have to Act Immediately upon finding that the grid is down, and Leaving Your Location Immediately.

When they take the Grid Down, Most People will ASSUME it is just another 'normal' local power-outage. Most people will not think anything is wrong, and will think no further than 'well the power company will get it back up soon'.

The government knows this too, and they will use this period of time to their advantage to finish putting everything in place.

But for the one's of us who know and understand this, we also will be able to use this time to our advantage as well. But again, this time period is going to be very short, most likely a day at most. And certain areas, like major cities, may have much less time as they will be the first ones 'secured/controlled'.

One 'tell-tale' sign that they have taken down the power grid, and that it is NOT just another local power outage, is that communications will also go down.

As cell phone towers, and phone companies all need power to run. This is One of the Main Reasons for them taking out the grid in the first place, as they don't want people to communicate, and to tell others in different parts of the country what is taking place in there local area.

~Selah/Pause & Think About It

And Be Ready to Flee At All Times, especially if you are still in the cities

“Aloha Hawaiians! If you see what you think are soldiers from the Communist Peoples Republic of China Army wandering about in your neck of the woods Tuesday through Thursday next week, your imagination is not playing tricks on you.

For the first time in history the U.S. Army will host the Communist Peoples Republic of China's Army on American soil **Nov. 12-14, 2013.**”

Note: The part where it states “*For the first time in history the U.S. Army will host the Communist Peoples Republic of China's Army on American soil*” is actually a lie, as you can see from the previous article, they were just in Hawaii this past September (and who knows if they ever actually left or where they were taken afterword). But most people don't remember events that long...

China's military recently deployed an **upgraded strategic bomber** that will carry the military's **new long-range land attack cruise missile**, capable of attacking Hawaii and Guam, according to a draft congressional report.

Chinese state-run media revealed for the first time this week that **Beijing's nuclear submarines** can attack **American cities** as a means to counterbalance U.S. nuclear deterrence in the Pacific.

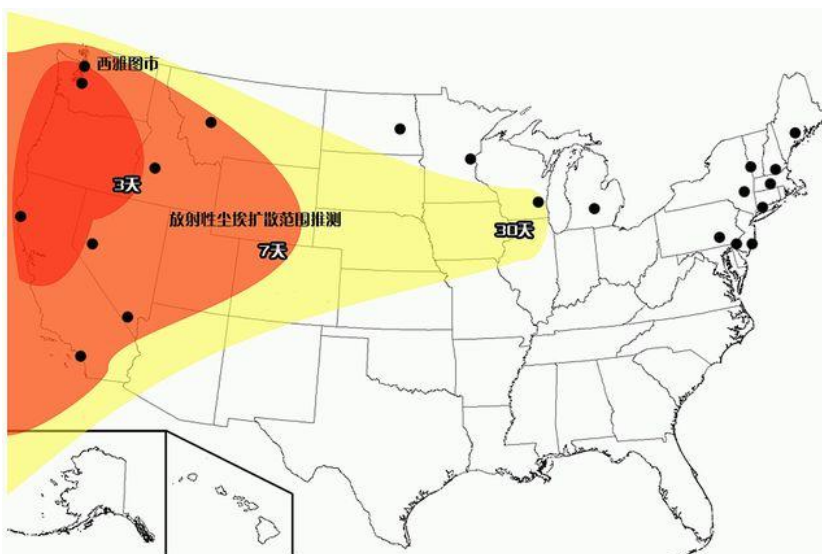

“This is the first time in 42 years since the establishment of our navy's strategic submarine force that we reveal on such a large scale the secrets of our first-generation underwater nuclear force,” the Global Times said in a lengthy article titled “China for the First Time Possesses Effective Underwater Nuclear Deterrence against the United States.”

<http://beforeitsnews.com/war-and-conflict/2013/11/chinese-govt-publishes-us-nuke-plans-2449346.html>

This astonishing story below this morning from the Washington Times proves that the Chinese government has published nuclear devastation plans for America as shared in the story and graphic below. Does China and the world now see America as the new ‘axis of evil’, to be reckoned with via nuclear annihilation? With China's ships now in Hawaiian waters as shared in this story from Mort Amsel, have American wars of aggression upon other nations begun to

return to haunt us? Details of China's plans are ‘chillingly macabre’ according to the Times story:

“Because the Midwest states of the U.S. are sparsely populated, in order to increase the lethality, [our] nuclear attacks should mainly target the key cities on the West Coast of the United States, such as Seattle,

Los Angeles, San Francisco and San Diego,” the Global Times said.

Actual Nuclear Target Map Released by China Media

While Barack Obama is busy gutting the U.S. nuclear arsenal, Russia and China are rapidly preparing for the day when they will nuke the United States. To most Americans, it sounds very strange to hear that Russia and China are concerned about nuclear war. After all, isn't the Cold War over? Isn't that what politicians from both major political parties keep telling us? Unfortunately, the truth is that Russia and China both consider the United States to be their number one geopolitical threat, and both nations have been systematically strengthening and updating their strategic forces. At the end of last month, Russia held a large-scale military drill that involved the launch of four nuclear missiles, and the Chinese government released a major report for the public which included maps showing what would happen to major U.S. cities in the event of a nuclear attack by Chinese submarines. Obama may blindly believe that wishful thinking and unilateral disarmament will keep the United States safe, but Russia and China are taking a much different path. Both of them believe that a military conflict with the United States in the future is quite likely, and they are rapidly preparing for that eventuality.

This is not about being ‘off grid’ or ‘green energy’. Its juts the final preparations to put in place independent power sources, for the facilities which they intend to use AFTER the Grid has been taken down. Walmart, as everyone should know, is part of Home Land Securities ‘Continuity of Government and National Emergency Plans’.

Quote from IRS Website:

“Planned Outage: November 9 — November 12, 2013

This service will be unavailable beginning approximately 4:00 p.m. ET on Saturday, November 9, 2013 until approximately 7:00 a.m. ET on Tuesday, November 12, 2013, due to a power outage. We apologize for any inconvenience.

How do you ‘Plan’ a ‘Power Outage’?

It is also interesting to note, that the muslims will be celebrating the “Day of ashura” which this year is from **nov 13th through nov 14th 2013**.

This is a day of mourning for the family of one of their ‘martyrs’ iman Hussain. But it is also called the ‘Day of Victory’ as they say Hussain got victory by being killed for islam.

Also for the muslims, it is their ‘Day of Atonement’ and many fast during this day.
